

# FILM STUDIES

## TRANSITION TASKS SUMMER 2021

**TASK 1:** For your first task, you need to create a short presentation on PPT about a film which has had an impact on you. It could be a film that has shocked you in some way, affected you emotionally, or just wowed you with the visual effects.

In your PPT you need to include:

- Some basic information about the film: when it was produced and released; who directed and produced it; a little bit of information about its plot.

Explain your reasons as to why this film has such an impact and why.

- For this you should refer to a key scene(s), ideally a link to the video of the scene but if unavailable screen shots are fine.
- A brief profile of one of the film's actors / actresses and how their role in this film was particularly important

Anything else which you feel you need to tell us about in order to show why and how this particular film had such an impact on you!

Your presentation should be approx. 10 slides in length.

**TASK 2:** For your second task, you need to watch ANY film that you have NOT already seen then write a 300 word review.

When writing a review you should:

Express your opinions and support your criticism. Do not shy away from saying whether you thought the film was good, bad, or in-between. Try to express why and how you came to this criticism. Be sure to back up your thoughts with specifics—a disappointing performance, a ridiculous plot, beautiful cinematography, difficult material that leaves you thinking, and so on.

Comment on the highlights or missteps of directors, cinematographers, costume designers and CGI. What worked, what surprised, what fell short of expectations, are all great questions to address in the body of your review.

Give your readers some idea of the plot, but be careful not to include any spoilers.

**TASK 3:** For the final creative task, I would like you to recreate a famous scene from a film of your choice. You could film a short scene 10 seconds or so, or create a series of still photos.

Think iconic moments that people would instantly recognise sometimes without even seeing the film.

Remember to think about location, costume and props as well as camera angles. Be resourceful and use what you have at your disposal.

Look at this video for inspiration:
