

Intent- Year 9 will ...

- Explore a variety of techniques that build on prior skills with more varied materials, demonstrating manipulation of media to show formal elements.
- Artists work will be explored to broaden understanding of the creative forum and understand the qualities of individual works and artistic movements
- Artist qualities to be used to develop own work and responses allowing them to be experimental and try new responses
- Outcomes will further expand media explored and reflect exploration of new concepts

By the end of the year students on course for at least a grade 5 will...

- Be able to clearly demonstrate formal elements across a variety of media and techniques, adapting and manipulating media to suit purpose.

- Show a good understanding of the artist's work/concepts
- Apply artists concepts/technique to own work, designs and outcomes
- Be able to verbally and in written form analyse their own work & that of artists
- Create outcome reflecting skills, concepts and a clear control of materials for purpose

ART – Threshold Concepts

TC#1

Mark making, often in the form of drawing, is considered to be the foundation of art – a way of thinking visually. It can be used for different purposes and is a powerful form of communication.

- Explore drawing in all forms to communicate ideas and observations

TC#2

Art, in many forms, tells us of our past, present and future, shaping and influencing our lives in significant ways. However, Art is not dependent on language or logic; it has the capacity to communicate directly with our nervous systems.

- Art in all forms presents our past, present and future

TC#3

Works of art consist of formal and visual elements (such as line, shape, form, pattern, texture, colour etc.). These elements combine to communicate in many ways, often suggestive of histories and traditions.

- Formal elements in art communicate observations, history & tradition

TC#4

Artists learn the 'rules' and conventions so they can decide when to break them. Some artists work within established traditions and genres, others tease and disrupt these in alternative ways. Definitions of art are always changing.

- Visually experiment and explore ideas, techniques and traditions

TC#5

Artists take creative journeys exploring materials, ideas and technologies. Unpredicted outcomes can emerge through purposeful play. Artists take risks and trust their intuition. They embrace 'happy accidents' and learn from 'mistakes'.

- Use creative journeys to take risks and explore possibilities

TC#6

Artists use their heads, hands and hearts, to varying degrees, during the creative process. Art appeals to the body and mind. To engage with a work of art a viewer might also employ all of their senses. Art can evoke a heightened sense of place and wonder.

- Art uses head, hands, heart, evoking emotional responses and contemplative practise

TC#7

The meanings of artworks are never fixed; what the artist intends and what the viewer understands may be different. Our individual interpretations of art are rarely the same but shaped by our knowledge, experiences and prejudices.

- Understand artist intentions and develop language to communicate individual response

TC#8

The value of art can be measured in different ways - personal, cultural, social, economic, political, and so on. Works of art and artists are not equally valued. Artists can be marginalised because of prevailing social attitudes. Attitudes to art change over time.

- Understand the context in which art work was created

TC#9

Art has the potential to influence human behaviour. It can evoke emotion and provoke action, shaping the world for good and bad. Art empowers us to notice, question, interact and respond. It is a way of understanding and expressing our existence.

- Art allows emotional responses to be communicated on personal, cultural and proactive levels
